FORWARD THINKING

FORWARD THINKING

SOME SCHOOLS SHOW YOU THE FUTURE. TU TAKES YOU THERE.

In 2009, The University of Tulsa ranked 47th among private schools and 83rd among 262 national doctoral universities in *U.S. News & World Report's* "America's Best Colleges." TU was also named one of the nation's top 50 "Best Value" private colleges and universities by The Princeton Review. Why? Academic excellence, of course. Just as important is the feeling on campus – the familiarity of a small college in a vibrant research institution, stunning new facilities, students energized by opportunity.

IF YOU'RE THINKING ABOUT THE FUTURE, THINK ABOUT THE UNIVERSITY OF TULSA.

A photograph of two young women with long hair, one with reddish-brown hair and one with blonde hair, looking at a laptop screen. They are in a music room, with a grand piano in the foreground. The piano is partially covered with a red and black patterned blanket. The background shows a window with a view of greenery outside. The text is overlaid on the lower half of the image, centered around a sunburst graphic.
